

7:00 – 10:00	Registration	Staff
09:00 – 12:30	<p><b>Free papers</b></p> <p>Apoptosis Occurs in Anterior Talofibular Ligament of Chronic Lateral Ankle Instability: "Add evidence from bench to bed" Yoon-Chung Kim</p> <p>Development of an In-Vivo Ankle and Hindfoot Kinematic Protocol to Investigate Activities of Daily Living David Williams</p> <p>Effect of weightbearing and foot position on 3D distal tibiofibular joint parameters Firas Souleiman</p> <p>A retrospective analysis of the definitive management of open talus fractures, comparing ORIF and tibiocalcaneal fusions, at a major trauma centre: Cohort study and audit of BOAST 4 guidelines. Andrew Zhou</p> <p>Ligamentous ankle lesions in relation to the morphometrics of the incisura fibularis: a systematic review Ruben Vermeir</p>	Claire Brockett Jitendra Mangwani
10:30 – 11:00	<b>Coffee Break/posters</b>	
11:00-12:30	<b>Hot topic 1: <i>Ankle ligament/trauma</i></b>	Claire Brockett David Williams
	Clinical perspectives on ankle ligament injury and stability	Mr Jitendra Mangwani Consultant Surgeon, University Hospitals of Leicester NHS Trust
	Computational modelling of ankle instability	Dr Harriet Talbott University of Bath
	Biological and Mechanical characterisation of Ligaments	Dr Jennifer Paxton University of Edinburgh
	Q&A	
	Group discussion and Joint consensus statement of key research questions	
1230 - 1330	<b>LUNCH &amp; POSTERS &amp; EXHIBIT HALL</b>	
1330 – 1430	<p><b>Workshop: Imaging innovation for foot and ankle disorders</b></p> <p>New modalities have risen in imaging of foot and ankle evaluation</p>	Yasuhito Tanaka Atsushi Teramoto
14:30 - 1530	<b>Hot topic 2: <i>Biologics in foot and ankle</i></b>	
	Review of current approaches	Mr Sheldon Lin, Rutgers North Jersey Orthopaedic Institute
	New avenues being trialled	Dr Emma Blain University of Cardiff
	Discussion questions to be answered and potential research approaches and summing up of the day	
1530	<b>Close/ Plenary presentation, main conference</b>
